### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 37, line 8, the phrase "to the transmitter acknowledgement" has been deleted because it was not indicated in the previous amendment filed on February 28, 2006.

In claim 38, line 3, the phrase "in the receive packets" has been deleted because it was not indicated in the previous amendment filed on February 28, 2006.

In claim 47, line 2, the phrase "wherein the power limit and the upper limit of the receive packet buffer window is" has been changed to "wherein the power limit and the upper limit of the receive packet buffer window are".

2. The following is an examiner's statement of reasons for allowance: the closest prior art to the claims is Chintada, however, Chintada fails to show or teach a method or communication device for synchronizing a receive packet buffer window in a receiver with a transmit packet buffer window in a transmitter that if a second plurality of data packets does not include packets that were not received by the receiver in a first plurality of data packets, then updating lower and upper limits of the receive packet buffer window corresponding to minimum and maximum sequence numbers

respectively of data packets included in the second plurality of data packets. Therefore, the receiver does not block the receive window buffer with sequence numbers of packets that were not received (or may never be received because the transmitter may have discarded them), and updates the receive window according to the new batch of packets.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
